---

For the extension of rollingstock schema there are some items on the list which are not yet clear with regard to their extent and the possible values.

3) data cables throughout vehicles

Expected as new attribute "dataCable" in <wagon> as enumeration with values like this

- 'unbekannt'
- 'keine'
- 'Wendezugsteuerung (Konventionelle Wendezugsteuerung-DB, 36-polig)'
- 'Wendezugsteuerung (Konventionelle Wendezugsteuerung-DR, 34-polig)'
- 'Kabel zur Steuerung der Notbremsüberbrückung'
- 'UIC-IS-Kabel (21-polig)'
- 'UIC 556'
- 'UIC 558 (18-polig)'
- 'UIC 568 (13-polig)'
- 'Wire Train Bus (WTB)'
- 'Multifunction Vehicle Bus (MVB)'
- 'Train Communication Network (TCN) (WTB+MVB)'
- 'Fahrzeugspezifische Verbindung'
- 'Lichtwellenleiter (allgemein)'

Is this enough information and what would be the likely values (named in English)?

The enumeration may be also used for electrical coupling.
