Dear Mr. Prüter,

thank you very much for your critical look about UIC's IRS30100 in the current state. The colleagues of the RailTopoModel Ing Expert Group will take the notices into consideration. Due to the holiday times it may take some time.

Please let's use this thread for all issues relating verbalisation, phrasings or wordings relating the IRS30100 version presented during the 6th UIC RailTopoModel conference on April 19th, 2016.

Best regards,

--
