Subject: Re: [railML2] extension suggestion for the element <state> for open time period
Posted by christian.rahmig on Fri, 11 Jun 2021 10:00:50 GMT

Dear Dominik,

thank you for your feedback. I added the proposed semantic rules in the Trac ticket #394 [1] to be added into the wiki documentation of the new attributes. The new attributes will be implemented in the railML 2.5 schema.
