Dear all,

this is just to inform you that in railML 2.5 a new attribute <speedProfile>@isBasicSpeedProfile (boolean) has been introduced to specify a speed profile being a basic speed profile. This introduction follows a longer discussion and ideas of railML 2.4 nor by JBD. For more details, please see the corresponding Trac ticket #424 [1].

[1] <https://trac.railml.org/ticket/424>

Best regards  
Christian
