Torben Brand wrote on Thu, 19 August 2021 12:22As I understand it, this solution suggestion for this post has been merged/partially replaced by the suggestion in the posting for an "informationArea" [https://www.railml.org/forum/index.php?t=msg&th=813&goto=2733&#msg_2733] as reflected in ticket #393. I suggest to close this post and, if needed, continue the dicussion in the post for "informationArea"

Correct. Let's fuse the discussions and continue in the other thread.
