Subject: Re: Balise group values for IS:functionalType
Posted by christian.rahmig on Fri, 05 Jan 2024 12:27:45 GMT

Dear Terje,

welcome to the railML community and Happy New Year!

The question that you raised concerning the mapping of different ETCS balise group types w.r.t. their functional type, is best being answered by the railML ETCS use case working group. Therefore, I will take this request with me and bring it up in the next ETCS use case working group meeting on January 22, 2024.

From the railML schema perspective, it seems to be a minor change to extend the baliseGroup functional type enumeration list with the missing entries, but maybe there are other ideas as well...

Best regards
Christian
