Dear Dirk,

>> 'date' defines the publishing date of the register.

>

> I guess 'date' is optional. Before it is too late: Shouldn't we name it
> 'startDate' and possibly introduce an (optional) 'endDate', too?

thank you for your important remark. As described in detail in trac ticket [1] I renamed "date" into "beginDate" and added "endDate". Both dates are optional while the other parameters, "register" and "entry" are set to be required.

Can you please copy your examples into the Wiki? Thank you again.
