Yes.

> Is there a protocol for the third railml meeting?

Das Protokoll wurde an alle damaligen Teilnehmer versandt, ich sende Ihnen per PM eine Kopie.

The protocol was sent to all participants of the Zurich-meeting and will be published on the railml.org-webside with the next change (in october/november, I afraid).

> Does Nikolaus Fries still have the lead for the timetable specifcation?

No. Responisble coordinator for the timetable scheme is Mr. Joachim Rubröder from SMA+Partner AG in Zurich/Switzerland.

So may I suggest, that you will get in contact with Mr. Rubröder first and discuss the changes. After this, you both should send a conclusion tho this board.

Best regards,
