Subject: Schema version 1.00 RC1 released
Posted by Ulrich Linder on Wed, 22 Sep 2004 09:07:21 GMT

Hello,

the first release candidate of V1.00 is released:

http://www.railml.org/genesis/infrastructure

The handling of switches and crossings is improved. The orientation and the course of a connection is moved from the switch/crossing the the relevant "connection"-child. Look at the discussion thread of V0.95-02 for more informations about other (minor) changes.

With best regards

Ulrich Linder
